

# It's your future ...

so prepare now for success! Just a few extra points on your ACT score can literally open doors and translate into thousands of scholarship dollars! Our former students (and their parents) will tell you, hands down -- when it comes to academic success, an investment now can pay huge dividends down the road. A.E.L.C.'s comprehensive prep courses are designed to develop and reinforce skills you need to successfully take the American College Testing Entrance Examination (ACT).

Our students learn effective test-taking strategies for each section and question type on the ACT test, as well as the general test structure and scoring method of the test. These strategies, combined with an intensive review of math and verbal concepts, increase speed and accuracy and boost test scores. Our students gain an average of four points on the pre- and post-tests given in class!

These eight-session review courses are taught by our seasoned team of instructors, and include diagnostic pre-testing with actual past ACT examinations. Specific areas of study include Mathematics, English, Science Reasoning, and Reading, with a final review right before the real deal. *Cambridge* preparation materials are used exclusively in our classes.

### When to take this course . . .

Best case scenario, we recommend that you take the ACT Prep course in your **sophomore or junior** year, and take the actual ACT exam several times, to attain your highest score. To that end, you can repeat any or all of the prep course, as many times as you want, for only a nominal re-enrollment fee. With your commitment and our resources, we can help boost your scores!
